

Brembo Brakes: from Mechanics to Mechatronics

*AUTOSPIN Workshop
Milano 20 March 2007*

Agenda :

1. Brembo Corporate
2. Mechatronic R&D
3. IEC 61508
4. Automotive-SPICE

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

1. Brembo Corporate

BREMBO

- A world leader in the **design and manufacturing of high performance braking systems and components.**

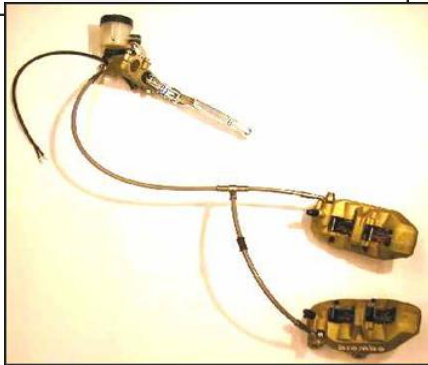

- A fully **integrated industrial process** from foundries to assembly.

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

PRODUCTS

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

2. Mechatronic R&D

- Mechatronic Projects
- Team

Mechatronic projects: R&D project overview

- Brake by Wire: replacement of the hydraulic brake system by a full electromechanical solution
- Electrical Parking Brake for light trucks: cable-puller
- Electrical Parking Brake for high performance cars: motor on fixed caliper
- Motorcycle racing: motorized brake lever adjustment

Mechatronic projects : component and system integration

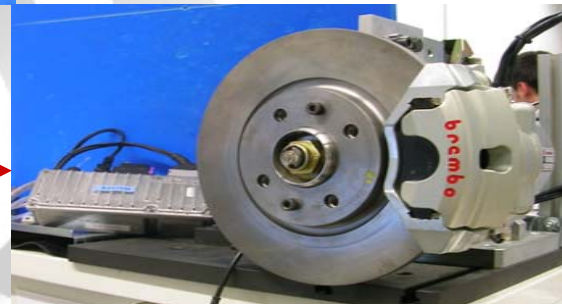

Designed and produced by
Brembo

Produced under Brembo's
specification

Integrated by Brembo

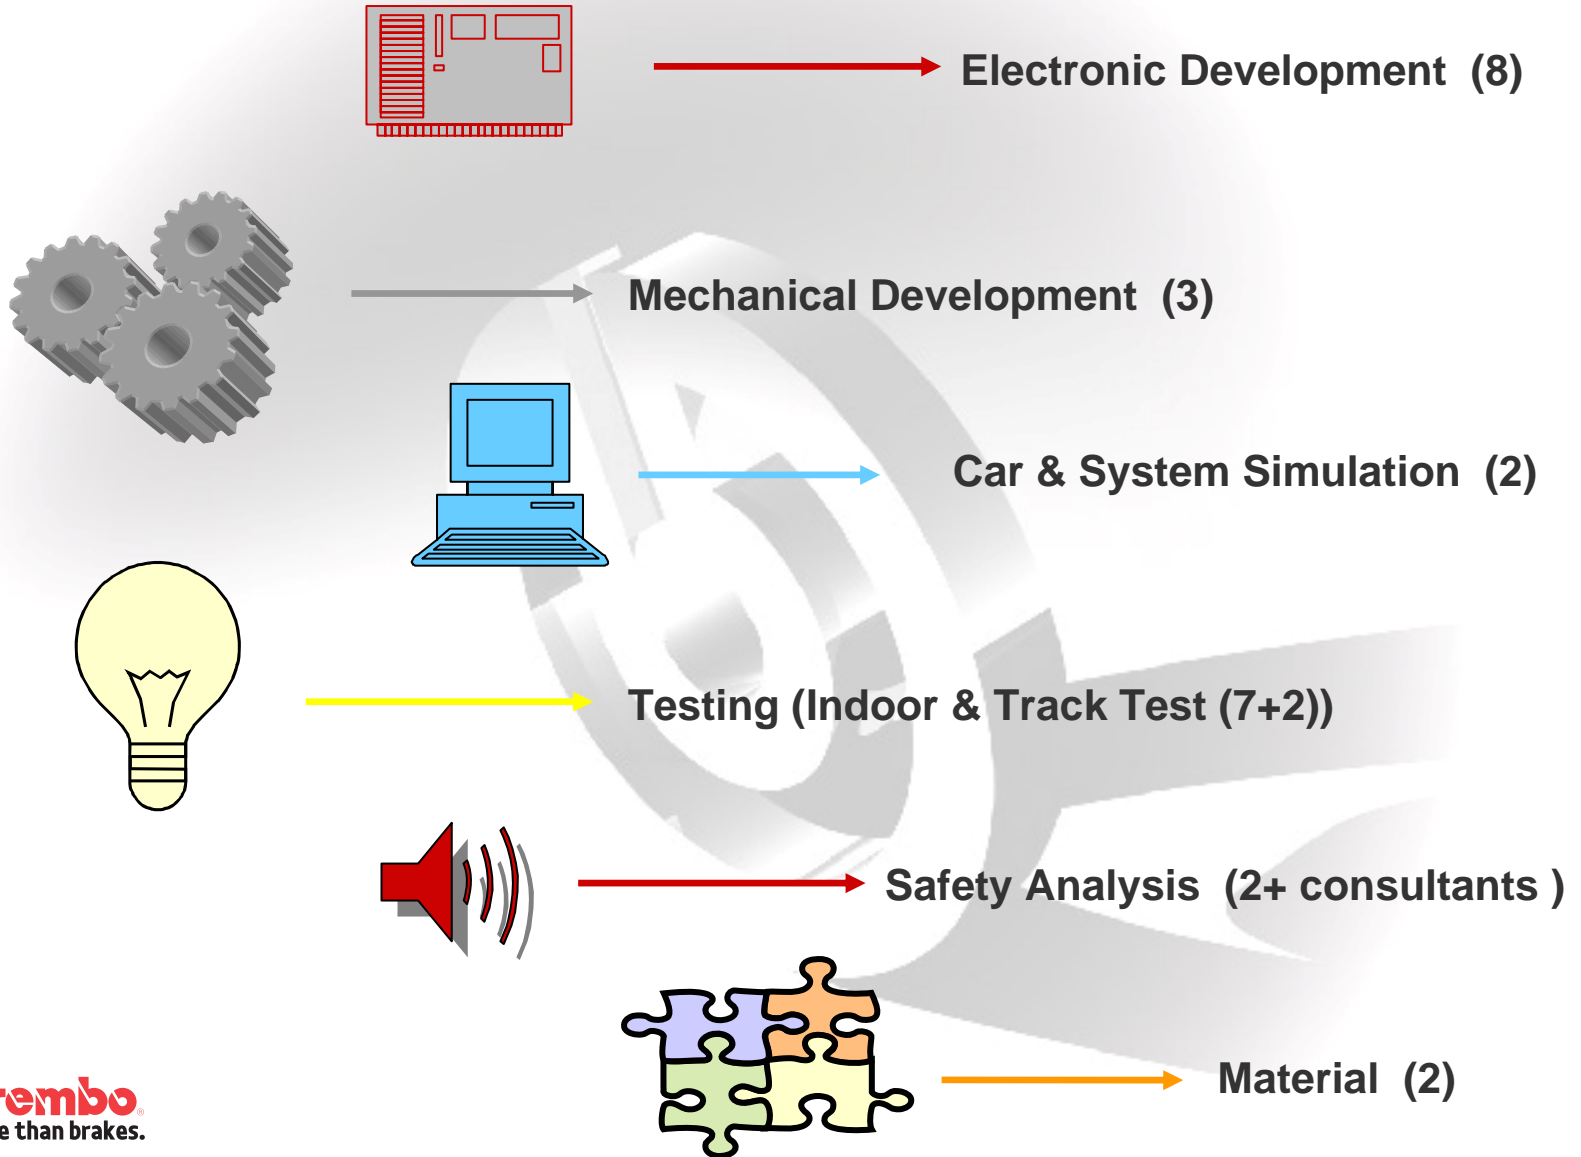

Integrated on vehicle with
the customer

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

Mechatronic projects: skills inside the team

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

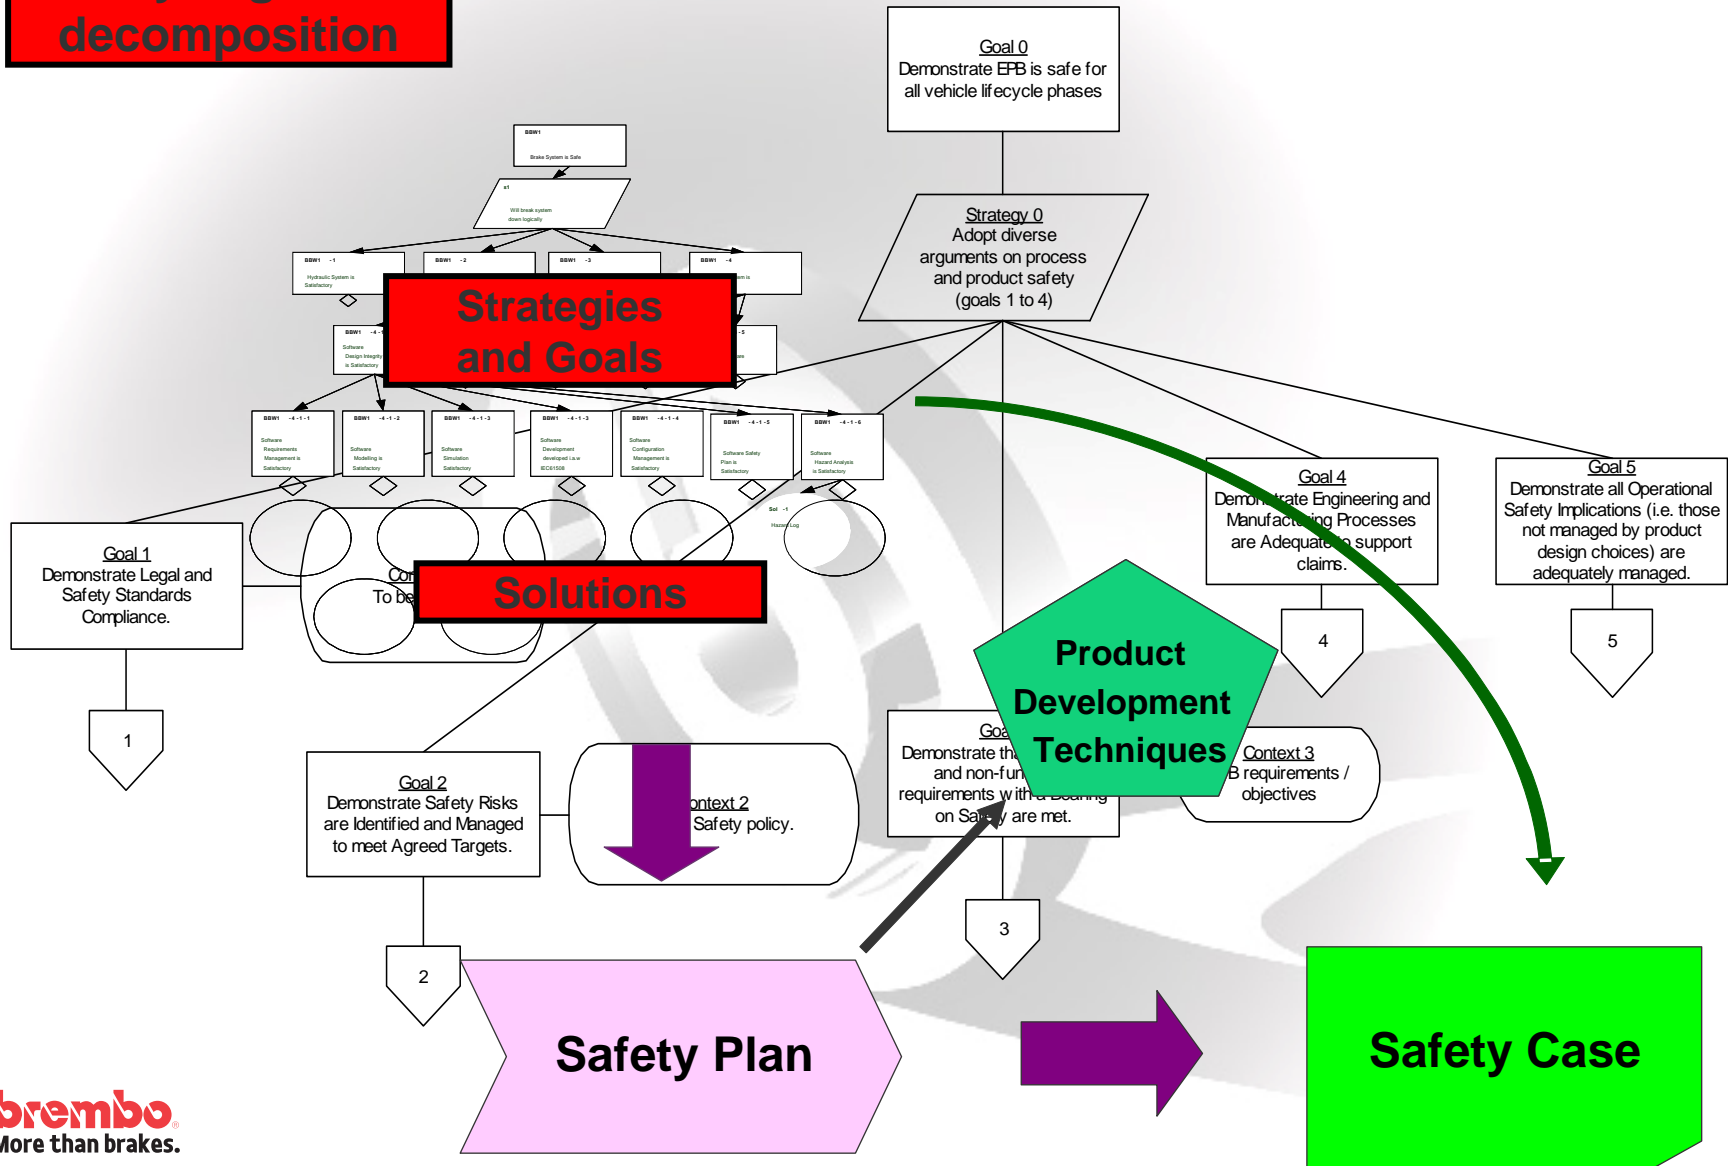

3. Development Processes

- IEC 61508
- Automotive-SPICE

IEC61508: Safety Concept and Process Definition

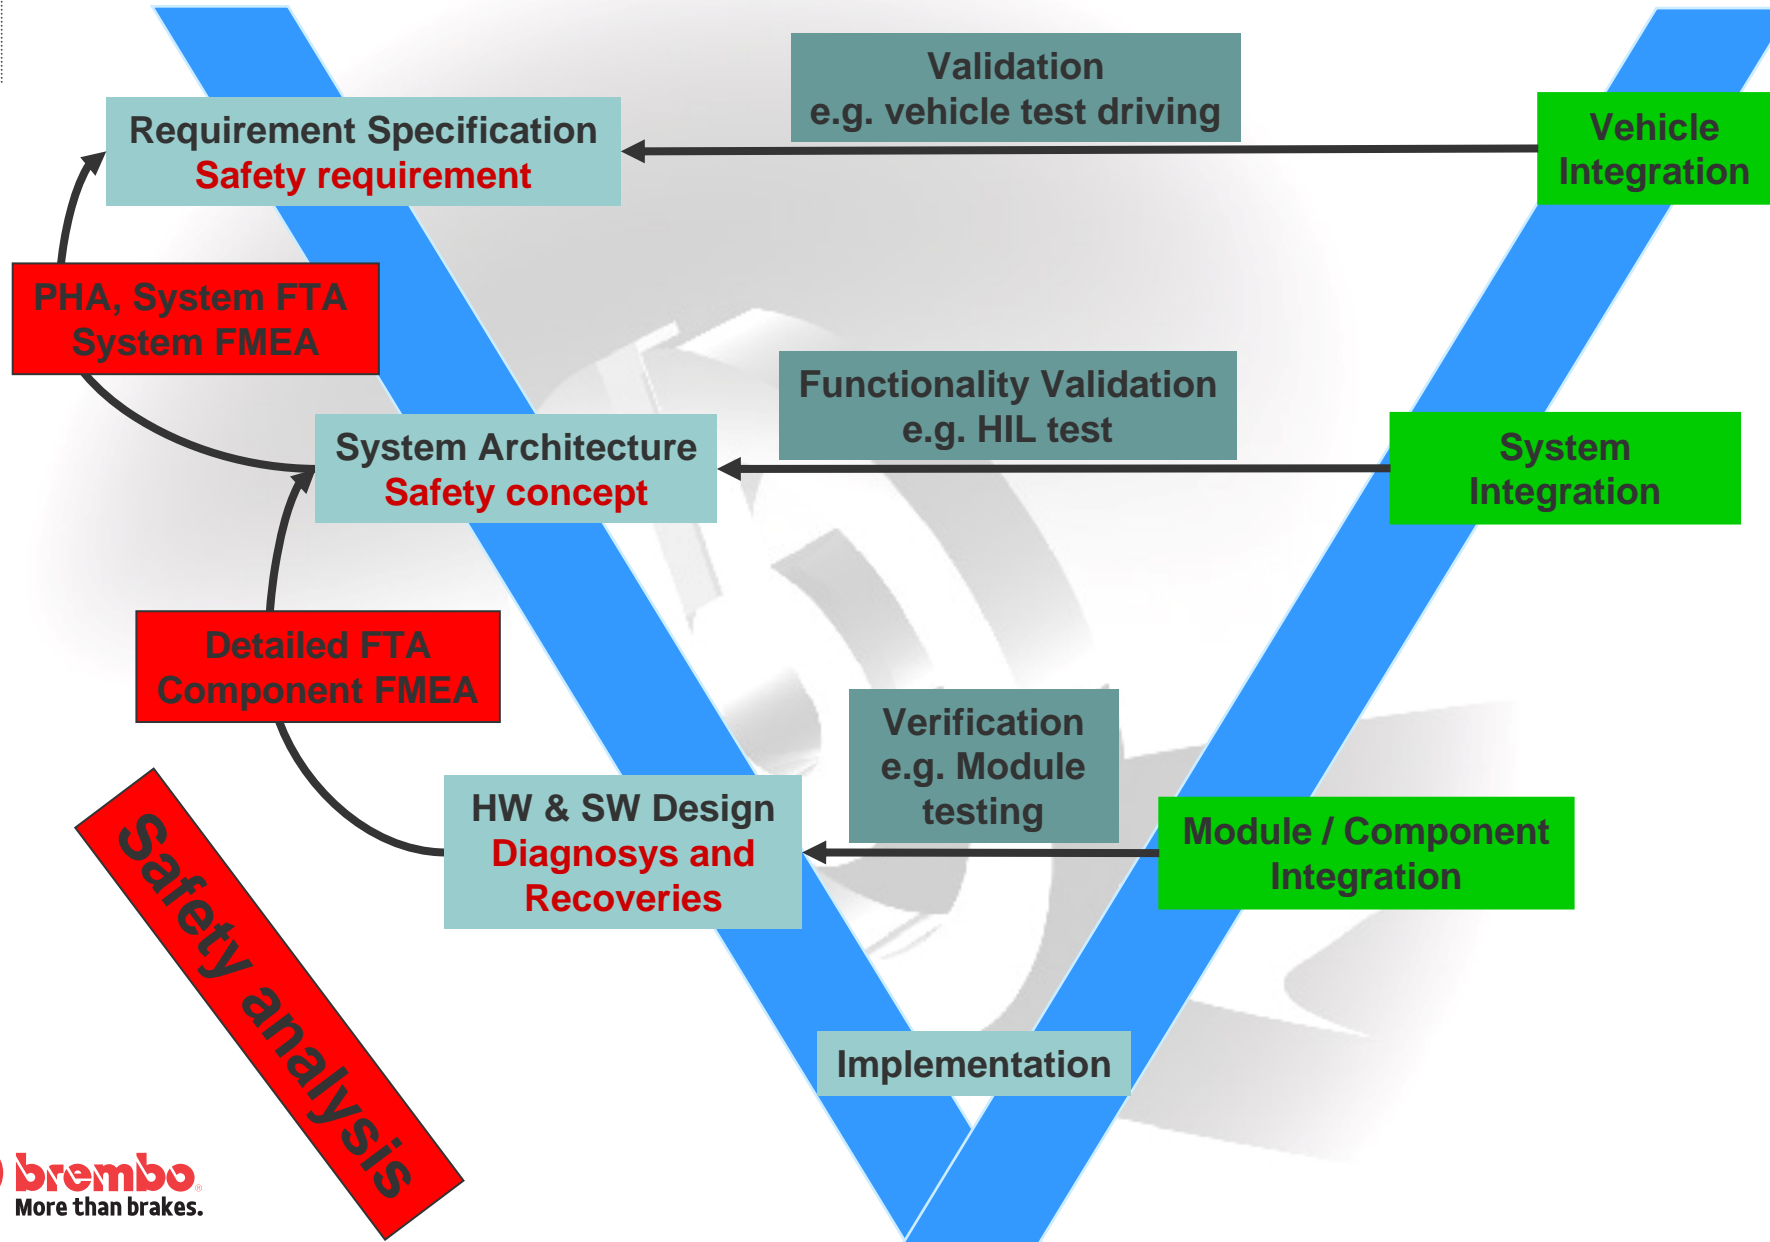

Safety Argument decomposition

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

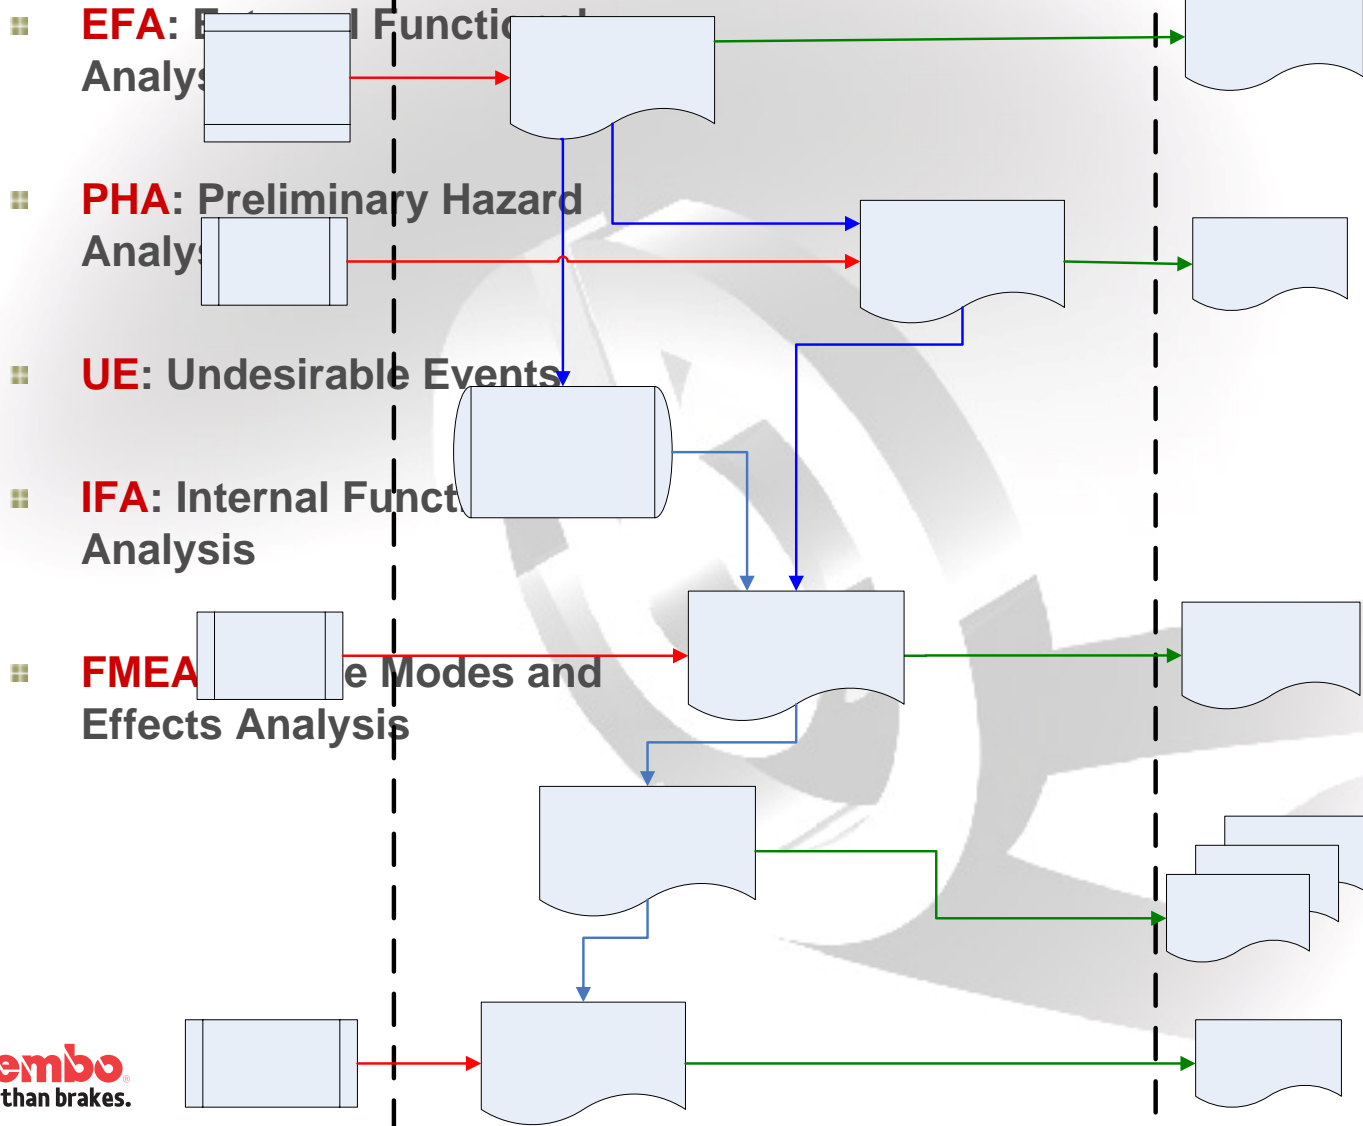

IEC61508: Safety Analysis in the V-Model

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

IEC61508: Brembo Safety Analysis, activities flowchart

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

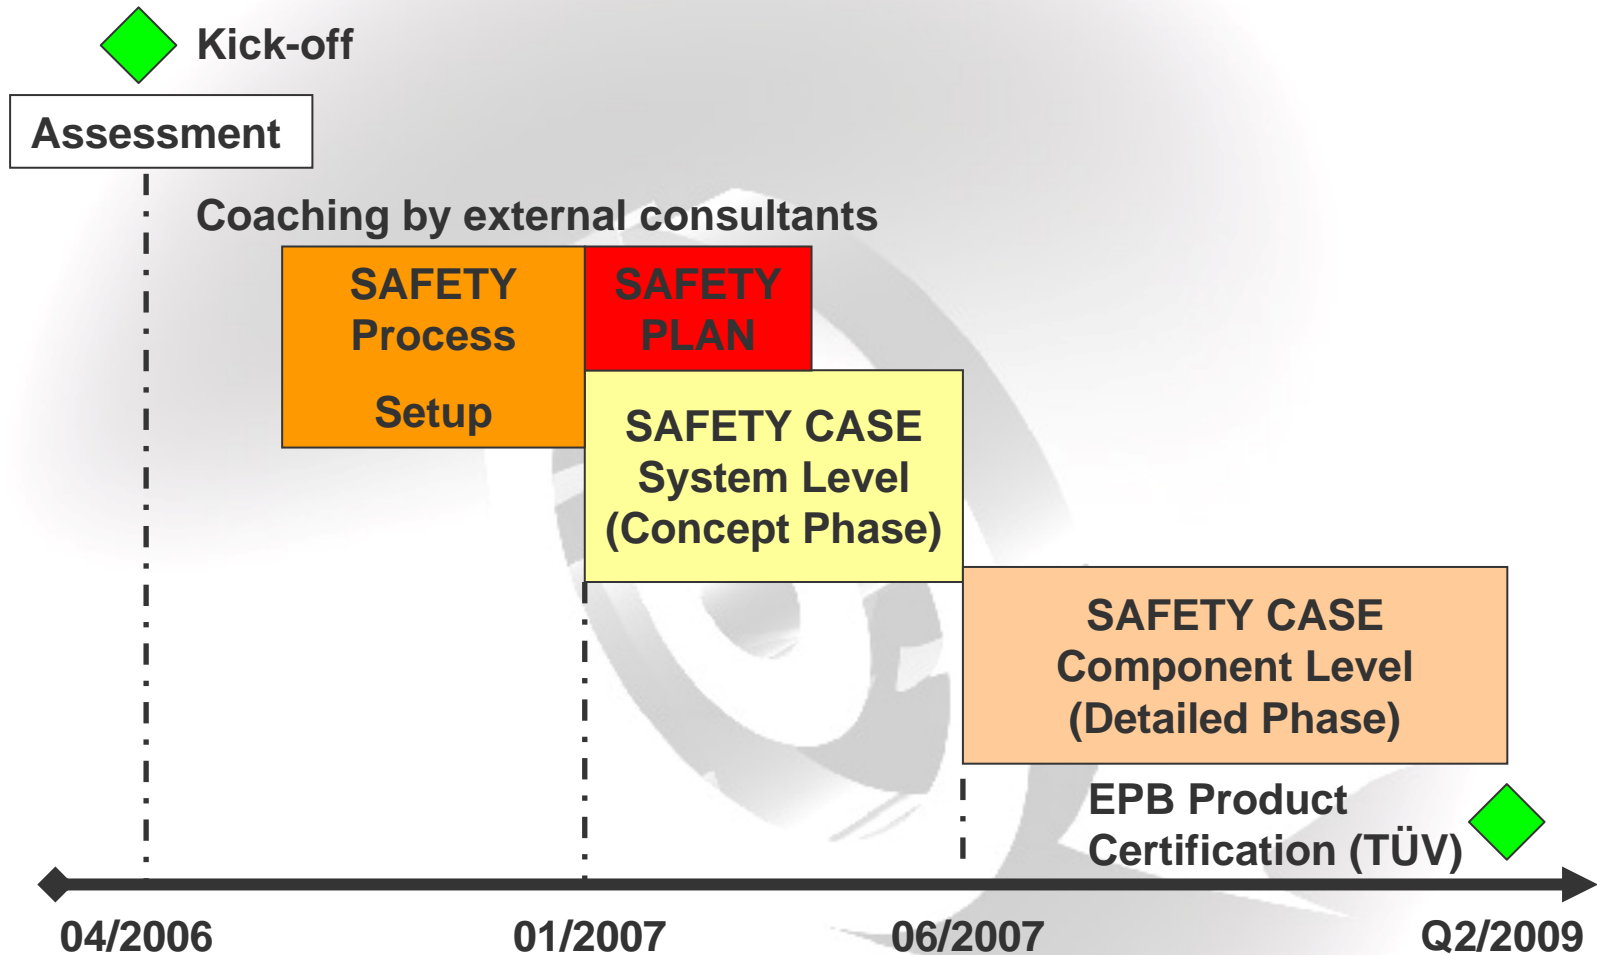

Input

Life cycle
System
definition

Automotive-SPICE in Brembo: Brembo Roadmap on Pilot Project EPB1

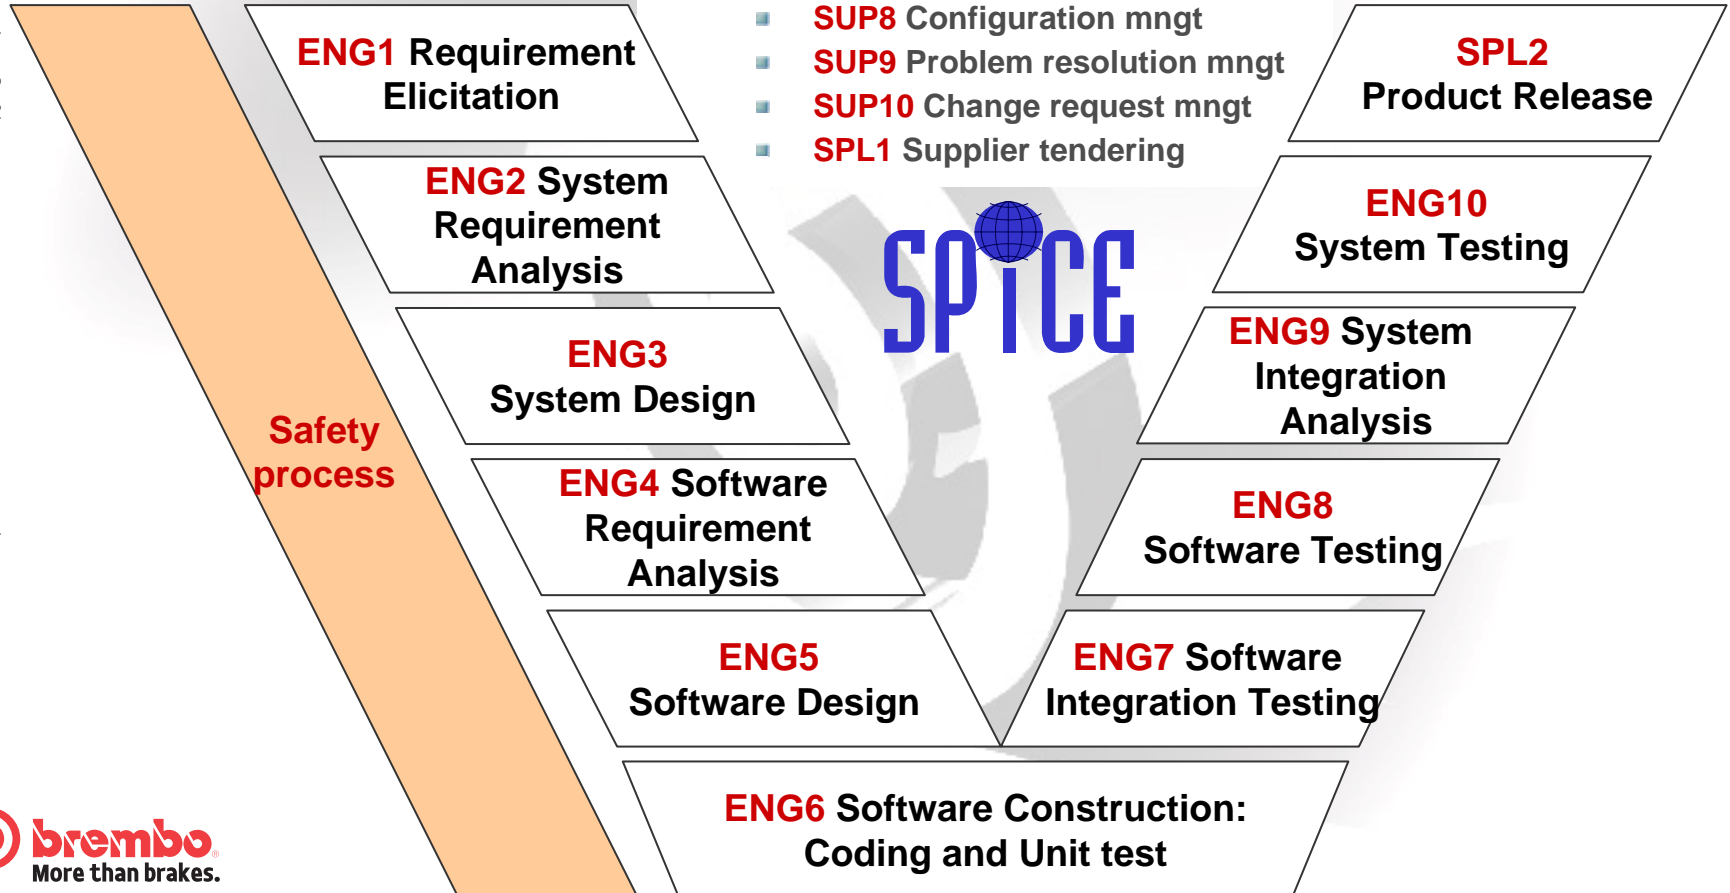

“Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties”

Automotive-SPICE in Brembo: Activities

+ Supporting activities:

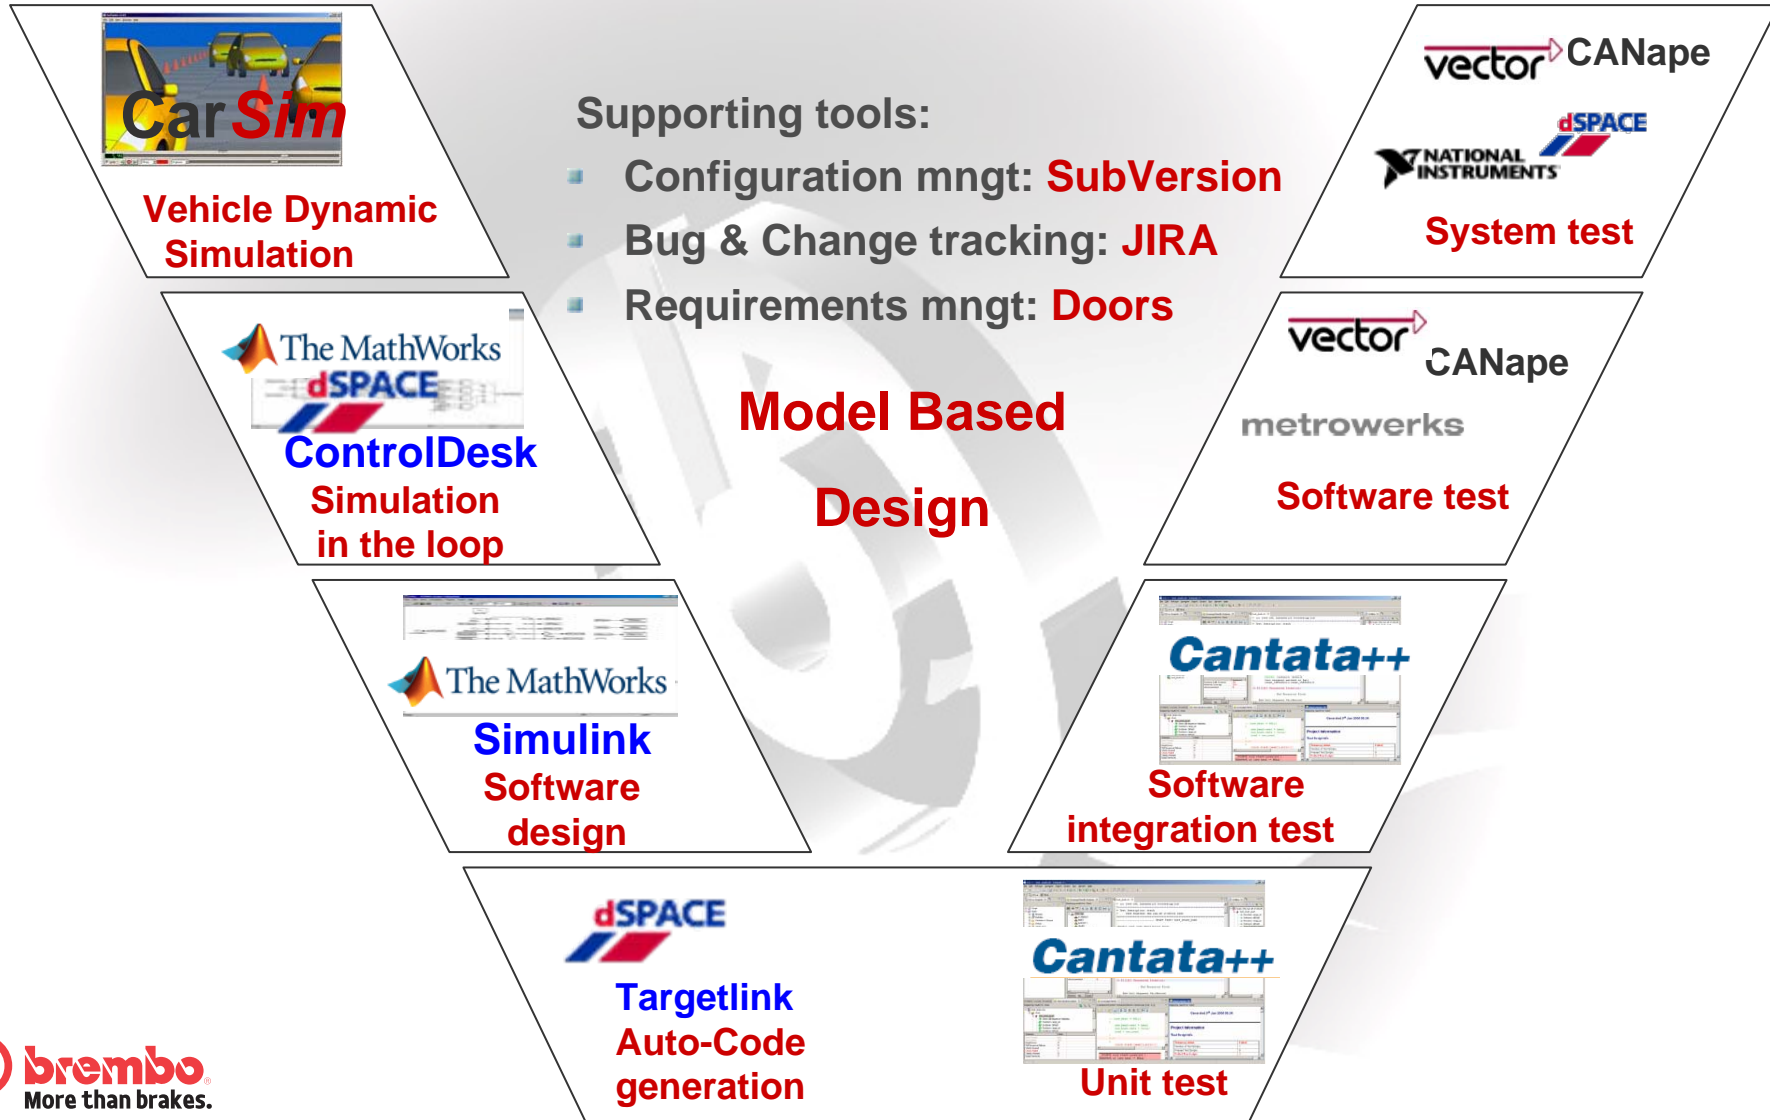

- **MAN3** Project mngt
- **MAN5** Risk mngt
- **ACQ4** Supplier monitoring
- **ACQ11** Technical requirements
- **ACQ13** Project requirements
- **SUP1** Quality assurance
- **SUP8** Configuration mngt
- **SUP9** Problem resolution mngt
- **SUP10** Change request mngt
- **SPL1** Supplier tendering

“Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties”

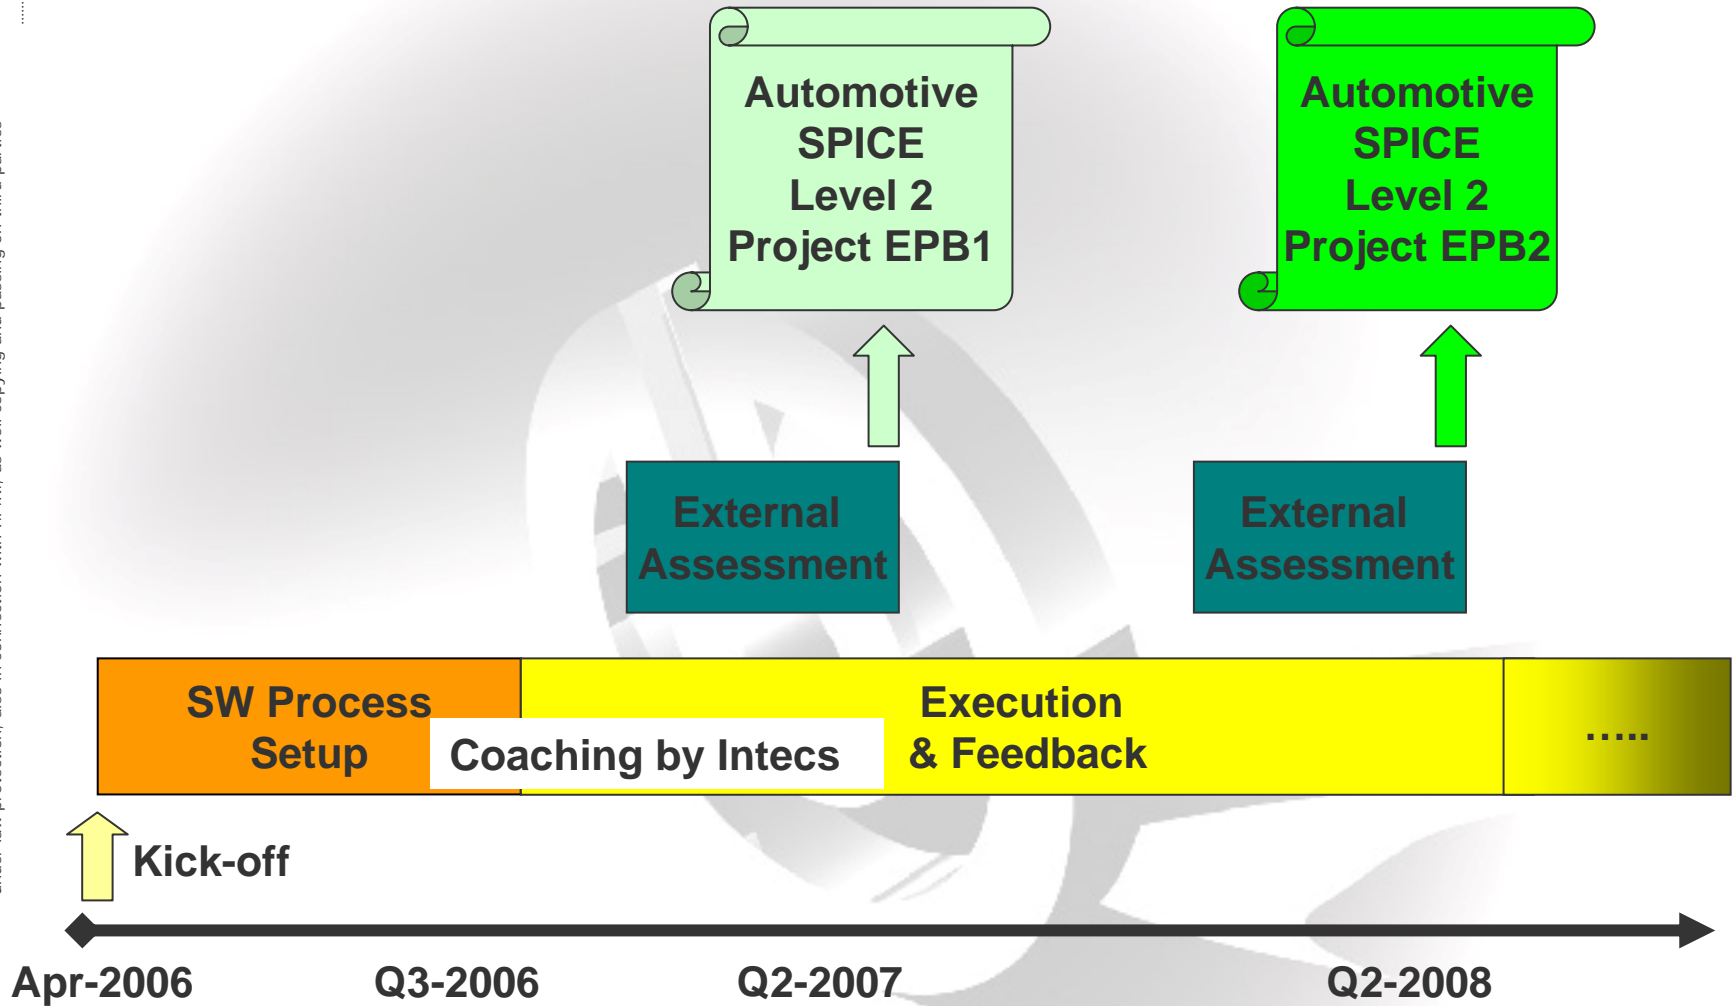

Process Activities: Software Development Toolchain

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

Automotive-SPICE in Brembo: Roadmap

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

Automotive-SPICE and IEC 61508: Remarkable points

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

Automotive-SPICE

“Plug & Play” process guidelines

Well accepted process for Automotive OEMs

IEC 61508

Reference for safety process

Structured guide for safety-case construction and execution

Automotive-SPICE and IEC 61508: some open issues...

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

Automotive-SPICE

Model based design and autocode generation not explicitly taken into consideration

IEC 61508

Difficult to implement without strong coaching

Overall

Waiting for automotive WD26262 adaptation

Automotive-SPICE and IEC 61508 mutual interfacing and optimization

High impact on resources and time-schedule

"Strictly Confidential. © Brembo S.p.A. reserves all rights of use and disposal, under law protection, also in connection with I.P.R., as well copying and passing on third parties"

Thank You!
